wayne@berryintl.com

Background Windows Computer programmer with extensive experience in both web applications in ASP.NET, Windows Services, Platform integration, and application development in Windows SDK, ATL, MFC, and WinForms. Specializing in performance optimization including SQL Server queries, caching algorithms, windows threading, compression, and encryption. Technology skills are coupled with a strong business sense, development leadership, management mentoring, training, documentation skills, and the ability to communicate at many levels -- including customer service. Skills include:

- T-SQL and SQL Server (former SDE at Microsoft on the SQL Server Team)
- Internet Information Server (former Microsoft MVP for IIS)
- C++, MFC, ATL, Windows SDK, COM and COM+
- Managed C# including ASP.NET and WinForms
- Technical Writing, Speaking and Training (35 published articles and 3 books)

Experience

EMERGENCY REPORTING since 2005
Lead Developer

- Consulting to manage a large SQL Server database and deploy Microsoft solutions, including IIS, SQL Server and ISA Server. Developing a base platform in C# to securely and quickly access data from web and windows applications. Consult with management to develop a software development infrastructure that includes build system, versioning, source control, and related processes.

POST POINT SOFTWARE 1999-2009
CEO and Lead Developer

- Designed, developed, and sold three major IIS enhancing software products and a dozen minor products to tens of thousands of IT departments globally. Eight people under management in 2004, and total sales of over 3 million dollars in ten years. Daily activities included designing, developing (C++), supporting, documenting and managing staff. Sold in 2009 to Port 80 Software

BUMPERART.COM 2005
Entrepreneur and Developer

- Conceptualized and built a web site business to dynamically generate and sell bumper stickers online. The ASP.NET (C#) web site generated PDFs on the fly and integrated with printers and online merchant processing. Sold in 2005 with sales of \$40,000 per month

15SECONDS.COM 1997-2000
Entrepreneur and Developer

- Founded and built a resource site for Microsoft web developers that specialized in IIS and ASP. Sold to Internet.com

Education Bachelor of Computer Science, Western Washington University
